## PROFESSIONAL SUMMARY

Enthusiastic Computer Science graduate with comprehensive full-stack development experience and strong foundation in Agile methodologies. Proficient in modern frontend frameworks (React), backend technologies (Java, Python, Node.js), and database systems. Demonstrated ability to collaborate effectively with cross-functional teams including designers, UX specialists, and backend engineers. Seeking Software Engineer role at Intuit to contribute to scalable web applications while growing expertise in AI/ML technologies.

## TECHNICAL SKILLS

**Frontend:** React, AngularJS, Vue.js, HTML5, CSS3, JavaScript (ES6+), Responsive Web Design

**Backend:** Java, Python, Node.js, Express.js, Spring MVC, Django, RESTful APIs

**Databases:** MySQL, PostgreSQL, MongoDB, Database Design

**Tools & DevOps:** Git, Jenkins, Travis CI, Docker, Agile/Scrum, JIRA

**Mobile:** React Native, Flutter, Android Studio, iOS Development Concepts

**AI/ML:** Basic Generative AI Concepts, Machine Learning Fundamentals

## PROFESSIONAL EXPERIENCE

### InnoByte Services — Full Stack Developer Intern

Nov 2024 – Present

- Developed responsive web applications using React and Node.js following Agile methodologies
- Collaborated with UX designers and backend engineers to implement user-friendly interfaces
- Built RESTful APIs using Express.js and integrated with MongoDB database
- Participated in daily Scrum meetings and sprint planning sessions

### Harvest Spices — Full-Stack Developer (Freelance)

May 2024 – Oct 2024

- Engineered full-stack e-commerce platform using React frontend and Python/Django backend
- Designed and implemented responsive UI components with modern CSS frameworks
- Developed RESTful APIs and integrated payment gateway (Razorpay)
- Optimized database queries and implemented caching strategies for MySQL
- Collaborated with client through iterative Agile development process

## PROJECTS

### NOVAPRESS — AI News Aggregator Platform

React, Python FastAPI, PostgreSQL

Full-stack application featuring AI-powered content curation; implemented responsive frontend with React, developed scalable backend APIs with Python FastAPI, and designed efficient database schema

### PrepWise — AI-Powered Interview Platform

Node.js, React Native, MongoDB

Cross-platform mobile application using React Native; built scoring microservice with NLP capabilities; implemented real-time feedback system using WebSocket connections

### E-commerce Analytics Dashboard

Vue.js, Java Spring Boot, MySQL

Developed interactive dashboard with Vue.js; created REST APIs with Spring Boot; implemented data visualization components and real-time analytics features

## EDUCATION

### Bachelor of Computer Applications (BCA)

2023 – 2026

M.G. University

GPA: 3.8/4.0

*Relevant Coursework:* Object-Oriented Programming, Data Structures, Algorithms, Database Systems, Web Technologies, Software Engineering, Agile Methodologies, AI Fundamentals

## CERTIFICATIONS & ACHIEVEMENTS

- NASA Space Apps Challenge — Global Hackathon Participant (2025)
- Winner — Pixel Rush, Asthra 1.0 Hackathon (2025)

## WHY I'M EXCITED ABOUT INTUIT

- Strong alignment with Intuit's focus on AI innovation and customer-driven product development
- Experience with full-stack technologies mentioned in job description (React, Java, Python, Node.js)
- Proven ability to collaborate in Agile teams with designers, UX specialists, and engineers
- Enthusiasm for learning new technologies and solving meaningful customer problems
- Foundation in AI concepts with eagerness to apply Generative AI capabilities

## CORE COMPETENCIES

---

Full-Stack Development • Agile/Scrum Methodologies • RESTful API Design • Cross-functional Collaboration • Problem Solving • Continuous Integration • Responsive Design • Database Management • Rapid Learning
